龙王 The Dragon King

一条愤怒的龙跃进共和广场的喷泉里。或者它是里昂市最挚爱的圣徒乔治的龙，或者是水龙的化身，2012年中国古星术所指的龙年。这个有着易经融性的动物在喧嚣里尽情展示它的庞大轮廓。此龙摆动着不断变换的色彩的身体，口喷光和烟雾，是不是这处不寻常的龙嫌地方不够大无法伸展，还是试图要引起观众的注意？由可循环的材料以及LED屏制成的这条友善的巨兽，源于一个高度着色和充满诗情画意的想象。

An angry dragon has dropped into the fountain of the Place de la République. Perhaps it is St George's dragon the beloved saint of the City of Lyon or an incarnation of the water dragon, the Chinese astrological symbol for 2012? The creature with its choleric temper will unroll its huge silhouette through the fountain. Vibrating with ever changing colours and spilling out clouds of lights and smoke, is this unusual dragon simply lacking space or trying to impress his audience? Made from re-cycled materials and LED screens, this kind monster born of a highly coloured and poetic imagination.
